

## CARE STATEMENT ON COVID-19 / CORONAVIRUS

**March 16, 2020 | Rapid Concrete Solutions**

Every day, we put the safety and welfare of our clients and our employees above all else. We want to inform businesses that work with **Rapid Concrete Solutions** that we take the effects of the coronavirus / COVID-19 very seriously.

**Rapid Concrete Solutions** reps and staff have been instructed to follow guidelines from the CDC and Ohio Governor Mike DeWine, which include frequently washing their hands, staying home if they are sick, and not congregating in groups.

We are minimizing any unnecessary contact with clients and between co-workers. Our employees have been instructed to maintain a 6-foot distance between themselves and others as recommended by the Ohio Department of Health. All reps are required to wear masks and gloves if that is the policy of the company and their buildings.
